

SB, SoffCut Press Pin , X2000, X2500, X4000, X4200, X5000, 2015-06

Picture 1

SYMPTOM/DESCRIPTION

A new “fixed” pin to secure the skid plate is introduced on Soff-Cut blade blocks. This pin provides better stability and less wear, producing a better quality cut on all Soff-Cut saws. The chance for lost retaining pins is also now eliminated.

AFFECTED UNITS

Model	S/N
X2000	001344303001 → forward
X2500	001343952001 → forward
X4000	001343524005 → forward
X4200	001343118001 → forward
X5000	001344181001 → forward

Table 1

CORRECTIVE ACTION

Order the new pin 587 91 82-01 through your usual spare part channel when needed. The old Pin 505 77 54-01 should be scrapped in local stock.

PROCEDURE

The new Pin should be pressed in when assembled. The Pin can be reused up to 4 times without losing its function.
